**Report on Skill development programme for B.Ed students of session 2023-25
through MICRO TEACHING (03.07.2024 – 31.08.2024)**

A excellent way to get experience, build confidence, try out different lecturing/tutoring styles, and learn and rehearse giving constructive criticism is through microteaching. Teachers can comfortably perform in front of a small number of students while simultaneously monitoring and assessing the work of others by using microteaching. Using video recordings, a technique known as microteaching is used to teach skills and behaviours in small groups. With friends and colleagues, educators can try out a tiny part of what they usually do with kids in a secure environment and get helpful feedback from the group. Base on the facts, **Nikhil Banga Sikshan Mahavidyalaya** has organized micro teaching session for B.Ed students of session 2022-24 on and from **03.07.2024 to 31.08.2024** as per following Time Table:
