Report on Celebration of Teachers' Day on 05.09.2024

Introduction: We honor and respect our teachers by celebrating Teacher's Day on September 5 of each year. This day is also celebrated as the birthdate of the scholar and educator Dr. Sarvepalli Radhakrishnan, the former president. In 1962, the first Teachers' Day was celebrated when Dr. Sarvepalli Radhakrishnan was elected as India's second president. As it transpired, he suggested that September 5th be observed as "Teachers' Day" rather than his birthday after some of his old students and friends expressed their wish to do so.

The students of Nikhil Banga Sikshan Mahavidyalaya celebrated September five as Teachers' Day like each year. They have organized and gifted a nice cultural programme to their respected Teachers. The program began at 11:00 AM with the opening song, and then the students felicitated the principal and the teaching and non-teaching staff. All of the academics, office workers, and students gave Dr. Radhakrishnan flowers as a tribute. After that students of both B.Ed and B.P.Ed presented their cultural programme followed by a drama. Finally Dr. Bhim Chandra Mondal explained the importance of the day and expressed his heartfelt thanks on behalf of the authority of Nikhil Banga Sikshan Mahavidyalaya to the students for organizing such a colorful evenest and also blessed them for their bright future.

Conclusions: The importance of Teachers' Day is that it provides an opportunity to honor the dedication and hard work of educators. Teachers are honored on this day for their dedication to their work on behalf of their students. It is also a day to honor the honorable profession of teaching and highlight the critical role that educators play in a nation's progress by developing and shaping the
