Report on School Internship (B.Ed SEM III) for B.Ed students of session 2024-26

Introduction: The professional experiences, observations, and pedagogical advancements obtained during an extensive internship at different schools are described in this report. The internship played a vital role in bridging the gap between academic theory and the real-world applications of secondary school. All the students are worked in classroom management, student counselling, curriculum creation, and administrative coordination during the internship programme.

Distribution of students :The B.Ed students of academic session 2024-26 has been distributed into various internship schools as shown in the following Table on and from 09.01.2026 to 11.04.2026.

Some glimpse of Intership

Conclusions: Over the course of several weeks, they have come to understand that teaching is much more than just carrying out a lesson plan; it also involves developing rapport, handling a variety of classroom dynamics, and adjusting to each student's individual pace. Students learned the importance of patience, adaptability, and active listening through interaction. Every engagement improved their teaching abilities, whether it was breaking down a difficult idea or handling a difficult behavioural situation.
